INTRODUCTION

The Annual Operational Plan is one of our most important documents. It is a key pillar of the IP&R Framework and demonstrates Council's commitment to delivering on the priorities set by our community, as identified in the Community Strategic Plan.

The Operational Plan is renewed annually to set the short-term priorities for Council. It determines the key projects which are budgeted and approved for the Financial Year and sets the parameters used to measure the progress and success of these projects. The plan has been compiled following extensive discussions and workshops with Council staff and Councillors ensuring that the activities and actions contained in the Plan are balanced against the priorities identified in the four-year Delivery Program which is directly linked to the Community Strategic Plan. The Operational Plan also identifies the resources, requirements and functions of the organisation including the major projects, programs and activities Council has committed to undertaking. These projects and activities include maintaining and

improving roads, footpaths, parks, buildings, water and waste infrastructure, recreation facilities and other Council assets throughout the year.

In the last year Council and its delivery partners have delivered a number of projects identified in the 2025/26 Annual Operational Plan and made progress against many others. However, with the announcement of the demerger of the Cootamundra and Gundagai Council's in August 2022, many priority areas will carry over or need to be put on hold until the outcome of the demerger is realised. As such, it is important to read this plan in conjunction with the annual report, four year delivery plan and community strategic plan as these plans currently stand.

The Plan is required to be placed on 28 days exhibition for community feedback, and adopted by June 30 each year.

HOW WE WILL MEASURE SUCCESS

Council will monitor progress and measure success through thorough and transparent reporting processes to help the community understand the status of major projects, highlights, good news stories, as well as challenges Council has faced in the delivery of its services.

Council will report on the Annual Operational Plan outcomes through:

- Quarterly financial reports
- Quarterly progress reports
- Annual reports

Council is committed to engaging the community for feedback on its service delivery and performance. The best way for Council to do this is through its community engagement activities and creating opportunities for open and honest conversations. Council has prioritised community engagement and in this plan commits to more face-to-face engagement opportunities as well as investigate digital avenues for community engagement.

ACKNOWLEDGEMENT OF COUNTRY

Council acknowledges the Wiradjuri people, the Traditional Custodians of the Land on which we live, work and play and pays its respects to Elders, both past and present, of the Wiradjuri Nation and extends that respect to other Aboriginal people.

ABOUT THIS PLAN

INTEGRATED PLANNING AND REPORTING FRAMEWORK

The Integrated Planning and Reporting Framework is one of the central components of local government in NSW.

The Annual Operational Plan, along with our Four-Year Delivery Program, and Community Strategic Plan, are part of the NSW State Government's Integrated Planning & Reporting Framework.

The Integrated Planning and Reporting Framework recognises that most communities share similar aspirations: a safe, healthy and pleasant place to live, a sustainable environment, opportunities for social interaction, opportunities for employment and reliable infrastructure. The differences lie in how each community responds to these needs, and the resulting character of the individual towns and villages. It also recognises that all Council's plans and policies are interconnected.

The Operational Plan has been prepared in accordance with the Integrated Planning and Reporting Framework and the Local Government Act 1993. The framework allows Council to draw all its plans together, planning holistically for the future.

ABOUT THE ANNUAL OPERATIONAL PLAN

The Operational Plan supports our Four-Year Delivery Program. It outlines the actions that Council will undertake in the 2025/26 financial year and allocate the resources necessary. The Operational Plan is based on Council's organisational structure and includes business profiles, budgets, operational activities, business improvement plans, key strategic projects and KPI's for each of the business units. These activities and projects are linked backed to our strategic directions and objectives addressed in Council's Community Strategic Plan and corporate goals. Also included are Council's annual budget, capital works program and fees and charges, as well as other financial details including information on rating and domestic waste management.

The Annual Operational Plan is prepared each year with each operational plan identifying the projects, programs and activities that council will conduct to achieve the commitments of the DP and CSP.

OUR COMMUNITY SNAPSHOT

The Cootamundra-Gundagai Regional Council Estimated Resident Population is 11,424 as at 2023.

The Cootamundra-Gundagai Regional Council area is located in the South West Slopes and Riverina Regions of New South Wales, about 390 kilometres south-west of the Sydney CBD, and about 164 kilometres north-west of the Canberra CBD.

The region boasts spectacular views of the country-side, with rolling hills and some of the country's best farming and cropping locations. We have museums for history lovers and an Arts Centre that holds regular workshops, exhibitions, performances and movie sessions. Combined with gorgeous architecture, streetscapes and views to keep the most ardent culture vultures and photography lovers intrigued.

The regions main industries are agriculture, meat processing, renewable energy, tourism, manufacturing and health and a growing dedication to coffee, great pub food and independent boutiques to attract the envious glances from Sydney, Melbourne and Canberra!

OUR STRATEGIC DIRECTION OVERVIEW

Our vision for the Cootamundra-Gundagai region is to be a vibrant region attracting people, investment and business through innovation, diversity, and community spirit.

The Annual Operating Plan is aligned to the five focus areas of the Community Strategic Plan (CSP) and Four-Year Delivery Program. It includes the list of activities and services that will be delivered in 2024/25 under each CSP Theme.

THE THEMES AND FOCUS AREAS ARE:

1. A VIBRANT, SAFE, AND INCLUSIVE COMMUNITY

We have a thriving community where diversity is embraced, everyone is welcomed, valued, safe and we have opportunities to enhance our health, happiness, and wellbeing.

2. A REGION FOR THE FUTURE

We are a prosperous and resilient region providing opportunities for growth and learning to strengthen and grow our economy, support tourism, and adopt new technologies to ensure long-term sustainability.

3. A PROTECTED AND ENHANCED ENVIRONMENT

We have attractive towns and villages that complement our unique natural environment, where heritage is preserved and enhanced whilst balancing the needs for regional development and growth.

4. COLLABORATIVE AND PROGRESSIVE LEADERSHIP

We have a transparent and accountable local Council with an actively engaged community and effective partnerships that fosters trust, facilitates innovation and uses resources wisely to meet community needs.

5. INTEGRATED AND ACCESSIBLE REGION

We have transport networks and services that are well connected and convenient and not only connect our villages and towns, but also connect us to other regions, capital cities and states, and our community has access to services and facilities that make the region 'liveable'.

INTRODUCTION

Council's Revenue Policy goal is to effectively and equitably manage revenue raising, service level and asset management decisions, and to ensure ongoing financial sustainability.

The Long Term Financial Plan seeks to:

- Be under-pinned by a sound financial strategy that will ensure Council's financial sustainability is protected and improved,
- Accommodate asset maintenance and asset renewal and replacement activity and be fully integrated with Council's Asset Management Plans, and
- Accommodate service levels proposed in Council's Delivery Program and Operational Plan.

Council's financial strategies to meet these goals are:

- To explore all cost effective opportunities to maximise Council's revenue base,
- To ensure ratepayer's value for money by providing effective and efficient service,
- To generate revenue in an equitable manner over time and ensure that there is capacity to finance peaks in asset renewal costs and other outlays when necessary,
- To build up cash reserves over the ten year planning period to enable infrastructure renewals as projected in Council's Asset Management Plans.

RATES

RATING PRINCIPLES

The objective of this Revenue Policy is to ensure that rates are levied in a fair and equitable manner so as to provide sufficient funds to carry out the general services which benefit all the ratepayers of the area.

Council aims to set rates and charges at a level that provides a sustainable income but does not impose undue hardship on property owners.

Council is committed to a rates and charges process that is ethical, transparent, open, accountable and compliant with legal obligations (including the NSW Local Government Act 1993 and the Local Government (General) Regulation 2005 (NSW)).

Council rates administration will be honest, diligent and applied consistently and fairly across all properties.

In accordance with the NSW Local Government Act, 1993, Council will adopt four categories of ordinary rate, being Farmland, Residential, Business and Mining.

An ordinary rate will be applied to each parcel of rateable land within the local government area.

The ordinary rate applicable for each assessment will be determined by the property's categorisation, which is dependent upon the dominant use.

RATE PEGGING

The Independent Pricing and Regulatory Tribunal (IPART) determines the rate peg, or allowable annual increase, that applies to local government rate income. IPART announced the rate peg to apply in the 2025-26 financial year will be 4.6%.

PENSIONER CONCESSIONS

Council provides a pensioner concession for eligible pensioners, in accordance with Section 575 of the Local Government Act 1993. Owners who become eligible pensioners during the year are entitled to a pro-rata concession of their rates (and applicable/eligible charges), calculated on a quarterly basis. Concessions are also reversed on a quarterly basis when owners become ineligible for the concession. In the event that an eligible pensioner has not claimed the concession previously, Council will grant the concession for the current year only.

Eligible pensioners are granted concessions on their ordinary rates, domestic waste management, water access and sewerage access charges. The cost of granting these concessions is shared between the State Government (55%) and Council (45%).

Eligible ratepayers are entitled to a maximum rebate of up to:

- \$250 off ordinary rates and charges for domestic waste services; and
- \$87.50 off annual water access charges; and
- \$87.50 off annual sewer access charges

VALUATIONS

Cootamundra-Gundagai Regional Council's land values were last updated by the NSW Valuer-General (VG) in 2024.

The VG provides property valuations to local government authorities on a cyclical basis, in accordance with the NSW Valuation of Land Act 1916. For the purposes of the 2025-26 rating year, the Base Date for land values is 1 July 2024.

Supplementary notices of valuation are also issued by the VG outside the usual valuation cycle because of changes to property that are recorded on the Register of Land Values. Council is advised of changes to land values and makes any resulting adjustments to rates.

Existing valuations may be reviewed by the VG for the following reasons:

- Newly created parcels of land
- The transfer of part of land which is included in an existing valuation
- The amalgamation of parcels of land into a single valuation
- Changes to zoning and other changes

The VG has issued a large number of supplementary notices in recent months, and these changes will continue to affect Council's rates and property database as they are issued up to 30 June 2025.

Rating Structures

Council aims to derive revenue from ordinary rates for each rating category as outlined in the table below.

The rating structure uses an ad-valorem component (multiplied by the land value of the property as determined by the Valuer-General), together with a base amount component of \$414.55 applied to all rateable assessments.

Rating Category (s514-518)	Number of Assessments	Ad Valorem Rate	Base Amount \$	Base Amount %	Land Value	2025/26 Estimated Income	% Yield

PAYMENT OF RATES AND CHARGES

COOTAMUNDRA-
GUNDAGAI REGIONAL
COUNCIL

PAYMENT ARRANGEMENTS

Council land rates and annual charges are paid in a single annual payment or by quarterly instalments. If a payment is made by a single annual payment, it is due by 31 August, and if it is paid by quarterly instalments it is due by 31 August, 30 November, 28 February and 31 May.

On or before 31 October, 31 January and 30 April, Council will send reminder notices (Instalment Notices) separately from the Rates Notice to each person paying by quarterly instalments. (s.562 NSW Local Government Act 1993). For the payment of rates and charges, Council accepts payment by BPay, BPoint (telephone and online), cheque, money order, credit card, EFTPOS, and cash. Note that payments cannot be made by direct credit to Council's bank account.

Council provides an optional direct debit facility for the payment of rates and charges periodically (weekly, fortnightly, monthly or quarterly on nominated due dates). If a scheduled direct debit is dishonoured, a \$15.00 fee in addition to any applicable bank charges will be added onto the rates and charges balance owing. There is no discount available for early payment of rates and charges.

INTEREST ON OVERDUE RATES AND CHARGES

Interest on overdue rates and charges shall be set in accordance with section 566(3) of the NSW Local Government Act 1993, applying the maximum rate of interest payable as determined by the Minister of Local Government. The interest rate on overdue rates and charges that is to apply for the year from 1 July 2025 to 30 June 2026 is 10.50.% per annum, calculated daily.

A three day grace period will apply so that interest will not be charged on overdue balances paid within three days of the due date. If an overdue balance is not paid within the three day grace period, interest will be charged based upon the number of days since the account became overdue.

DEBT RECOVERY

Council has a responsibility to recover monies owing to it in a timely, efficient and effective manner, to finance its operations and to ensure effective cash flow management.

Council aims to ensure effective control over debts owed to Council, including overdue rates, fees, charges, and interest, and to establish debt recovery procedures for the efficient collection of receivables and management of outstanding debts, including deferment and alternative payment arrangements in accordance with Council's Debt Recovery Policy, and relevant Ministerial advices and legislation.

HARDSHIP ASSISTANCE

Council recognises that there are cases of genuine financial hardship requiring the appropriate respect of the circumstances, especially in light of the economic circumstances and difficulties that have resulted from Covid-19, Rate Harmonisation, and Special Rate Variation.

Council's Rates and Charges Financial Hardship Policy, and relevant Ministerial advices and related legislation, have established guidelines for the assessment of hardship applications applying the principles of fairness, integrity, confidentiality, and compliance with relevant statutory requirements.

COPIES OF NOTICES

The fee to reproduce and supply a copy of a previously issued Rates or Water & Sewer charges notice will be \$10.00 per notice, payable in advance. A copy of a previously issued notice shall only be supplied to the owner of the property (or their nominated and correctly authorised agent) for the period of which the notice is requested.

Road opening charges

Road opening charges are as recommended by TfNSW.

For restoration of private road openings up to 10 sq m, rate calculated per sq m, in accordance with the following rate schedule. The rate per sq m is to be interpreted as meaning a minimum charge/deposit on the final cost. Where the actual restoration costs exceed the calculated charge (by applying the appropriate rate per sq m) by more than \$200, actual costs will be charged and any amount received in accordance with the above scale of rates will be regarded as a deposit on the final cost.

For restoration of road openings over 10 sq m, costs are charged at Council's private works rates.

Several openings made at the one time, less than 50 m apart may be grouped as one, unless otherwise determined by the authority.

Where earth and gravel shoulders exist adjacent to pavement no.'s 1 & 3 inclusive & restoration by the authority is necessary to the shoulders, the charge shown under no. 4 is to be made additional to the charge for pavement.
